## **ACG displays new aluminum based packaging solutions at PMec**

### **New range to enhance over all business offerings**

ACG Films and Foils have extended their product range to now offer aluminum packaging solutions range. At PMec, the business displayed the entire range.

The product offerings on display are cold form blister foils, aluminum lid foils, tropical blister foils, child resistance foils and senior friendly foils, The Child Resistant foil is structured to provide a tighter peel barrier, whereas the Senior Friendly foils ensure easy peeling to allow senior citizens ease of access.

All the packaging solutions offer absolute barrier protection, comply with all regulatory and pharmaceutical certifications.

The business has set up a dedicated facility to manufacture aluminum based packaging foils which are targeted to the growing domestic market, which has seen an exponential demand in this sector

The solutions on display are

#### 1. Cold form blister foils:

- 3-layer Standard structure: 25 µm OPA/ 45 µm ALU/ 60 µm PVC
- 3-layer Structure with 100 µm PVC: 25 µm OPA/ 45 µm ALU/ 100 µm PVC
- 4-layer structure: 60 µm PVC/ 25 µm OPA/ 60 µm ALU/ 60 µm PVC
- Cold form foils with PE

#### 2. Aluminium lid foils

- Push through Aluminium based lid foil- 25 µm ALU/ 7 Gsm. HSL
- Peel open- Paper based lid foil- 40 Gsm. Paper/ 19 µm BOPET
- Peel open- Paper- PET- ALU- HSL lid foil- 50 Gsm. Paper/ 12 µm PET/ 20 µm ALU/ 7 GSM HSL
- Peel open- PET- ALU- HSL lid foil- 23 µm PET/ 20 µm ALU/ 7 gsm HSL
- Peel open lid foil Peelable to PE

### 3. Child resistance and Senior Friendly foils

- CR/ SR foils (20 mic Alu, 15 mic PVC)

### 4. Tropical blister foils: 25 µm OPA/ 45 µm ALU/ 7 Gsm. HSL

At the unveil S R Shivshanker CEO ACG Films and Foils said, “ACG films and foils uses raw material which is compliant with FDA regulations; making our products globally viable. As leaders in blister foils, adding aluminium foil products to our portfolio was a natural progression. This way we can target not just the pharmaceutical industry but also the FMCG industry with our products, ‘

The business has set up a dedicated facility to manufacture aluminum films and foils which are targeted to the growing domestic market, which has seen an exponential demand in this sector

#### **About P-MEC**

**P-MEC India represent the platform** where international and domestic pharma experts meet to do business, network and **shape the future of the Indian and South East Asian pharmaceutical industry.**

#### **About ACG**

The ACG group is the only supplier in the world offering integrated manufacturing solutions for the pharmaceutical industry. The company’s diverse product range of Capsules, Films & Foils, Engineering and Inspection systems don’t just meet, but exceeds the demands of international regulatory requirements. ACG is committed to just one goal: to offer everything needed for efficient capsule and tablet manufacturing.

ACG has over 5 decades of experience and is present in over 100 countries, with over 4,500 employees around the world. Our customer-centric approach has won us many loyal, satisfied customers and partners by nurturing relationships with dignity and transparency.
