

# PRESS RELEASE

ACG showcases wide range of Vegetarian capsules

Consolidates its leadership position in both gelatin and HPMC capsule manufacturing

ACG Capsules, a world leader in capsule manufacturing exhibits its range of vegetarian capsules at PMec. The range covers all key application in the pharmaceutical and nutraceutical industry such as solids, liquid and semi-liquid encapsulation, combination filling, dry powder inhalation, delayed release and the HPMC capsule that meets requirement of pharma industry.

Selwyn Noronha, CEO, ACG Capsules explains, “ACG vegetarian capsules, also known as HPMC capsules, are free from any animal origin material. This makes them very suitable and easy to adapt across varied cultural, dietary and lifestyle preferences. Due to these capsules being such a viable option, the pharma and nutra industry is seeing a surge in demand for them, making ACG a trusted partner for vegetarian capsules”

Key benefits of vegetarian capsules such as chemical stability and low moisture content make them a more suitable option for dosage delivery across a wide range of formulations

## **About P-MEC**

P-MEC India represent the platform where international and domestic pharma experts meet to do business, network and shape the future of the Indian and South East Asian pharmaceutical industry.
