EVERYTHING YOU NEED TO FULFILL YOUR DIVERSE RANGE OF CAPSULE REQUIREMENTS
When it comes to capsule needs, ACG is the name to be reckoned with pride and recognition. With over 50 years of industry experience, ACG Capsules is one of the largest manufacturer of empty hard capsules. Our diverse range of capsules is designed to meet every capsule requirement. We offer capsules in a variety of sizes and colors. We also provide application-based capsules that are suitable for filling solids, liquids, semi-liquids and combination fills. We have also pioneered a unique technology solution for printing on hard capsules. This technology offers a distinct identity to the brand, setting it apart from the competition.

Our world-class capsule manufacturing facilities in India, Europe and Brazil (upcoming) cater to the pharmaceutical and nutraceutical industries in more than 100 countries. Our extensive global network of well-equipped warehousing facilities ensures quick deliveries to the global markets. Our consistent approach to provide customized solutions, empowered by our strong global presence have enabled us to work closely with our customers.

The ACG capsule manufacturing facilities* are
• WHO GMP certified
• ISO 9001:2000 and ISO 14001:2015 certified
• EXCI PAC T certified
• Assigned with DMF registration number by the US FDA and Health Canada

SciTech Centre - ACG’s R&D affiliate in Mumbai, stands testimony to our continuous investment in innovative products and technologies.

*Applicable certifications may vary from site to site
ACG IN NUMBERS

5 Decades of Industry Experience

100+ Countries with Satisfied Customers

11 Global Offices

15 Global Manufacturing Facilities

100+ Billion Capsules Production Capacity

38,000+ Tons Packaging Films and Foils Produced Annually

20,000+ Machines Installed

OUR GLOBAL PRESENCE

OUR DIVERSE RANGE OF CAPSULES
Empty Hard Gelatin Capsules
Best performance and reliability

Wide choice and flexibility
• Available in 15 sizes (000 to 5) and more than 9000 colors

Maximizes yield on high-speed filling machines
• Proven machine-friendly design

Regulatory compliant
• Meets high quality standards

Enhanced brand security and differentiation
• Supports customized intricate printing

HPMC Capsules
Versatile capsule that meet dietary, functional and lifestyle preferences

Suitable for vegetarian products
• Made from natural plant-sourced cellulose. No animal origin materials used in manufacturing.

Compatible with a wide range of formulations
• Superior heat stability with no cross-linking issues with the formulation

Suitable for moisture-sensitive formulations
• Low inherent moisture

Certified by relevant regulations
• Meets standards of Vegetarian society U.K., Certified Vegan, Non-GMO, Star ‘K’ Kosher and Halal

Maximizes yield on high-speed filling machines
• Proven machine-friendly design
Next-gen HPMC Capsules
Next-gen HPMC capsules to enhance product performance

Meets the requirement of challenging products
• Fulfills the dissolution performance requirement across all biological pH
Compatible with a wide range of formulations
• Superior heat stability with no cross-linking issues with the formulation
Suitable for moisture-sensitive formulations
• Low inherent moisture
Suitable for vegetarian products
• Made from natural plant-sourced cellulose. No animal origin materials used in manufacturing.
Certified by relevant regulations
• Meets standards of Vegetarian society U.K., Certified Vegan, Non-GMO, Star ‘K’ Kosher and Halal
Maximizes yield on high-speed filling machines
• Proven machine-friendly design

HPMC Capsules for Time-delayed Release
Ensures effective drug delivery

Prevents degradation of formulation by avoiding exposure to stomach acids
• Delays release of formulation by up to 60 minutes or until the capsule is in the intestine (i.e. pH > 5.5)
Easier and more convenient way to develop a modified-release product
• Eliminates the need for additional protective coating of formulation or capsule
Suitable for vegetarian products
• Made from natural plant-sourced cellulose. No animal origin materials used in manufacturing
Ideal choice for products like probiotics and enzymes
• Suitable for sensitive formulations
Certified by relevant regulations
• Meets standards of Vegetarian society U.K., Certified Vegan, Non-GMO, Star ‘K’ Kosher and Halal
Maximizes yield on high-speed filling machines
• Proven machine-friendly design
Empty Hard Capsules for Liquid Encapsulation

Superior solution for liquid encapsulation

Suitable for a wide range of formulations
- Available in gelatin and HPMC variants

Ideal choice for filling liquids, semi-liquids, pastes, hot-melts and combination fills
- Specially designed for secured encapsulation of liquids

Enhanced brand identity enabling product line extension
- Distinct attractive appearance. Printing on capsules possible.

Effective taste and odor masking of formulations
- Secure band sealing of capsules after encapsulation

Prevents the risk of de-coloration
- No plasticizer used in the capsule shell

End-to-end service
- By offering liquid encapsulation and band sealing machines

Capsules for Dry Powder Inhalation (DPI)

Cornerstone of capsule-based DPI (cDPI) solution

Suitable for a wide range of formulations
- Available in gelatin and HPMC variants

Enhanced drug effectiveness
- Designed for maximum dose delivery

Compatible with any commonly available inhalation device
- Efficient puncturing, cutting or “twist open” performance

Enhanced brand identity
- Wide choice of color and printing options

Maximizes yield on high-speed filling machines
- Proven machine-friendly design
Empty Hard Capsules with Lustre Finish

Elegant aesthetic that enhances your brand value

Suitable for a wide range of formulations
  • Available in gelatin and HPMC variants

Wide choice and flexibility
  • Available in many sizes and colors

Ideal for personal care and lifestyle products
  • Renders a premium appearance to the product with a shiny lustre finish

Enhanced brand security and differentiation
  • Supports customized intricate printing

Maximizes yield on high-speed filling machines
  • Proven machine-friendly design

Empty Hard Gelatin Capsules for Clinical Trials

Designed for clinical trials

Ideal for clinical trials to ensure integrity of a blinded study
  • Specially designed to effectively mask drug and placebo with secured locking

Convenient and versatile to use
  • Large internal space for accommodating uniquely shaped tablets

Wide choice and flexibility
  • Available in AA, A & B sizes and universally accepted standard colors

Improved patient compliance
  • Easy to swallow

Maximizes yield on high-speed filling machines
  • Proven machine-friendly design
Empty Hard Fish Gelatin Capsules
Proven alternative to animal origin gelatin

- Free from TSE risk associated with bovine or porcine gelatin sources
  - Made from fish gelatin derived from non-ruminant material
- Wide choice and flexibility for customers
  - Available in many sizes and colors
- Suitable for water and oxygen sensitive formulations
  - Low water vapor transmission rate and low oxygen permeability
- Certified by relevant regulations
  - Kosher certified, comply with EP and regulation N 999/2001 amendments
- Maximizes yield on high-speed filling machines
  - Proven machine-friendly design

Combination Fill Hard Capsules
One solution, many possibilities

- Suitable for fixed dose combination, multi-dose products or incompatible formulations
  - Enables simultaneous filling of two or more formulations into a single capsule
- Enables best of both the worlds in one dosage form
  - Capable of combining solid and liquid formulations simultaneously
- Ideal for extending the product life cycle
  - Easier way to accomplish brand differentiation
- Suitable for a wide range of formulations
  - Available in gelatin and HPMC variants
- Maximizes yield on high-speed filling machines
  - Proven machine-friendly design
VALUE ADDED SERVICES

Customized Pre-printing of Empty Hard Capsules
Brand security made easy

Enhances brand visibility
- Customized printing of graphic, logo or text on capsules

Provides effective protection against counterfeiting
- Intricate and secured printing technology

Eliminates the need for any capital investment
- One-stop solution from customized designing to supply of pre-printed capsules

Unique way to achieve effective brand differentiation
- "4C" solution enables attractive printing using up to 4 colors

Intricate way to prevent counterfeiting of capsules
- "360" solution enables full circular oriented printing using up to 2 colors
Formulation Compatibility Support

Supported by our strong R&D capabilities and expert resources, we work closely with the customers’ product development teams on aspects related to compatibility between the formulation and the capsule. This helps customers ensure selection of the right capsule at the development stage. We also work with customers on innovative customization of capsules to suit the formulation requirement and give them a competitive edge in the market.

Technical Services

We believe that our responsibility does not end with the supply of right quality capsules. We go an extra mile in partnering with our customers to ensure that they achieve maximum productivity with our capsules on the filling machines. Leveraging our group level expertise in manufacturing of capsule-filling machines and engineering knowledge, our technical service team proactively helps customers in maximizing the yield. We also support them by overcoming the challenges associated with the capsule-filling process on the shop floor.

Regulatory Support

With our rich global experience and exposure to all key markets, we are aligned with the regulatory requirements of both developed and emerging markets, laying emphasis on cross-country compliances. We have a dedicated regulatory experts team that ensures process and product compliances for meeting the regulatory requirements of different markets. We work closely with our customers to actively support them on all documentary requirements for exporting products to the regulated markets of Europe and the USA.

Capsule Customization

With our innovation capabilities and a wide range of manufacturing solutions, we help our customers in developing solutions customized for their needs. These include development of right colorants for regulatory compliance, special size of capsule, dosage optimization and unique multi-color and 360° circular printing on capsules to name a few.
