Madrid, Spain

## ACG to exhibit diverse product ranges at CPhI, underpinning global expansion

*-Manufacturing specialist proud to debut its 'real-life roller coaster' Capsules Dream Ride-*

ACG, the only supplier offering end-to-end manufacturing solutions for the pharmaceutical industry globally, will be exhibiting its extensive Capsules and Films & Foils range at CPhI Madrid 2018, showcasing its global capability and growth. The company is also proud to be debuting its new '**Capsules Dream Ride**'.

ACG Capsules, offers a range of HPMC and Gelatin capsules that meet the regulatory requirements for pharma and nutra industries. At CPhI, ACG Capsules will be exhibiting the traditional capsules range along with capsules for clinical trials, the new Next-Gen (Hypromellose -cellulose) capsules. Other products on display includes capsules for liquid-fill and combination-fill applications and capsules for dry powder inhalation (DPI) applications designed for efficient puncturing and dose delivery.

ACG Films & Foils business will be showcasing a wide range of polymer and aluminium-based packaging solutions including: Alumpack regulatory compliant cold-form blister foils, Alumlid Aluminum lidding foils and child resistant and senior friendly foils. They will also be showcasing, specialty films like suppose-laminated films for suppositories and Unidose unit dose packaging films. Also, on display will be high barrier packaging solutions including Ultrasafe ultra high barrier nextgen PVdC films, Dupac PVC films coated with high-performance PVdC, providing moderate to high moisture and oxygen barriers, and Ecopac a plasticizer-free, rigid PVC film.

The show-stealer at the exhibition will be the ACG's state-of-the-art virtual reality show 'Capsules Dream Ride in 4D' experience that takes the audience on an end-to-end experience of the complete capsules manufacturing process. The video showcases the transformation journey of a capsule - from the basic raw material gelatin, to a finished product blister packed and cartoned.

**Peter Neve, Chief Marketing Officer at ACG**, said, "With increasing manufacturing capacity both on a regional and global basis, ACG is absolutely committed to its goal of offering comprehensive R+D, integrated manufacturing, production solutions to businesses across the globe. To serve the global market better, ACG is also working on expanding a its manufacturing plant in Croatia. Additionally, ACG Films & Foils will be focussing on collaborations in European, North American and LATAM markets."

Meet us at CPhI Madrid on stand 8H40 or come along to try the roller coaster 'Capsules Dream' virtual reality ride.

#### **About ACG**
