

PRESS RELEASE

ACG to showcase its complete range of manufacturing and packaging solutions at Asia Pharma Expo held at Dhaka

Dhaka, Bangladesh
21st February, 2017

ACG Worldwide will be participating in the Asia Pharma Expo to be held at Dhaka, Bangladesh from 23-25 February 2017. ACG will be displaying its integrated pharma manufacturing solutions at Hall 2-A, Booth 2030.

This year, ACG is adopting a unique theme, 'Fly with ACG', which represents ACG's commitment to assist its customers board the flight of success with its technology-driven products. ACG will be showcasing its comprehensive range of manufacturing and packaging solutions to help customers that meet all their business needs. ACG's cutting edge solutions include their integrated granulation solutions and high yield encapsulation (ZRO 200T), new-generation R&D tableting (Protab 200T) and versatile blister packaging (BMAX) machines.

"ACG has a strong presence in Bangladesh. Currently Bangladesh exports products to 79 countries across the world and this number is expected to increase in coming years. With our integrated manufacturing solutions, we want to support Bangladesh's pharma industry to enter into the global pharma markets more aggressively," said Peter Neve, CMO, ACG Worldwide.

About Asia Pharma Expo

APE 2017 - the 9th international exhibition on complete pharma manufacturing technologies is a proven platform to business with Bangladesh. It is also a great learning platform for all the entrepreneurs aspiring to join in the growth of pharmaceutical industry in Bangladesh. Asia Pharma is the most lucrative opportunity for companies to expand their local & global market share via networking & fetching attractive business deals.

About ACG

The ACG group is the only supplier in the world offering integrated manufacturing solutions for the pharmaceutical industry.
