SECURECOAT series

SECURECOAT 175

About the SECURECOAT series

The SECURECOAT series includes containment tablet coaters designed with operator safety front of mind, for use with highly potent active pharmaceutical ingredients (HPAPIs) that require occupational exposure band (OEB) 4 compliance.

About the SECURECOAT 175

The SECURECOAT 175 is ideal for coating tablets containing oncological, cytotoxic, biopharmaceutical, hormonal, and other high-potency drugs for batches of up to 175l.

Applications

Containment film coating, seal coating, sugar coating, drug coating of tablets, micro-tablet coating, pellet coating

Features	Benefits
Contained product charging and discharging system, using bins and split valves	Complete containment of the product, ensuring operator safety
Vacuum-based sampling mechanism	Contained sampling throughout operation
Uniquely designed baffles	Not only do they match the mixing and coating efficiency of SMARTCOATER X•ONE baffles but are easy-to-clean too
Strategically positioned washing nozzles for inaccessible areas, with a wash-in-place (WIP) rack	Far simpler washing
ACG's exclusive X•ONE command and control system	Compliant with ATEX, GAMP 5 and 21 CFR Part 11, this advanced technology allows intuitive, secure monitoring and control of the system
