

ACGcaps™ GT

For enrobing caplets.

Using ACGcaps™ GT unleashes great opportunities to differentiate your brand in an increasingly overcrowded market.

Comprising two identically shaped gelatine shells, ACGcaps™ GT allows you to completely enclose caplets (capsule-shaped tablets). A gap can also be left between shells, with the caplet in the very centre of the capsule.

Key features

- / Creates brand stand-out
- / Masks unpleasant tastes and odours in active ingredients or excipients
- / Easy to swallow and patient-friendly
- / Tamper-evident design
- / Can help to extend product lifecycles
- / ACGcaps™ GT Plus variant offers full capsule enrobing
- / ACGcaps™ GT Pro variant leaves a gap in between shells for more rapid disintegration and quick release of drugs
