Machinery > Granulation > Fluid bed combos > FBC series

Our versatile FBC range expands your process efficiency exponentially. With your need for flexible operations in mind, we designed our combo series to feature top-spray and Wurster coating technology in one innovative machine. It's a proven boost for the pharmaceutical and nutraceutical industries.

This unique tabletop granulation system is designed specifically for academic settings, and can handle batch sizes as small as 50g. Featuring a nozzle from Düsen-Schlick GmbH, this versatile multitasking system is ideal for drying, granulation and Wurster coating.

Applications

Top-spray granulation, wet-mass drying, hot-melt granulation, tangential spray granulation, Wurster coating

Features	Benefits
Integrated peristaltic pump	Facilitates compact housing of the system and minimises footprint
Innovative tower assembly	Allows easy operation, inspection, and cleaning of the system
Unique venturi-based fluidisation system	Requires no electrically powered blower, making installation easier and more cost-effective
5µ sock filter prevents dust escape	Ensures cleaner operations and working environments

Technical specifications

		Top-spray granulation	Wurster coating
Working volume	Min	225ml	40ml
	Max	750ml	200ml
