

Make it better.

ACG SMART CONNECTED

**Your key to  
unlocking untapped  
machine efficiencies.**

# Your machines do more with ACG Smart Connected.

Imagine your blistering machines' OEE improving by up to 11%. Think what an extra 10% uptime or 17% faster machine speed could mean for your business.

With ACG Smart Connected, this isn't just wishful thinking – it's what our customers are actually achieving right now.

ACG Smart Connected is an advanced connected machines platform that harnesses technology to drive operational excellence.

Integrating seamlessly with our machines, ACG Smart Connected allows users to capture essential data, conduct advanced analyses, and use actionable insights to optimise and enhance the health and efficiency of their machines.

Measurable impact that translates into visible improvements.<sup>1</sup>

11%

Increase in overall equipment effectiveness (OEE)

54%

Reduction in critical process parameter variations

81%

Decrease in machine downtime and alarms

17%

Improvement in production performance

<sup>1</sup>Based on documented results from customer installations.

## Key features to power your operations

ACG Smart Connected goes beyond simple monitoring. Our platform transforms machine data into smart insights for data driven decision making.

- / Real-time OEE dashboards for line and plant level visibility
- / OEE optimisation insights powered by AI / ML algorithms
- / Golden batch monitoring and deviation alerts
- / Maintenance scheduling and component lifecycle management
- / Machine condition monitoring and maintenance alerts
- / Insightful reports and dashboards

## Network Operations Centre-driven intelligence

In addition to platform-based insights, you'll also receive advice from our dedicated team of analysts and subject matter experts. Continuously monitoring your connected machines from our network Operations Centre, they will provide curated reports of their own insights, and highlight any critical issues (with solutions) that may require immediate attention.

## Comprehensive equipment coverage

From granulation and encapsulation, to tablet coating, blister packaging and carton packaging, ACG Smart Connected seamlessly integrates across your production line.

## Our unique advantage

ACG Smart Connected is built for the pharmaceutical industry by pharmaceutical experts.

Designed in close collaboration with our customers, and developed by industry veterans with decades of global manufacturing expertise, ACG's Smart Connected solution is a domain-rich platform that aims to deliver meaningful impact, and drive real business value.

Installing a Smart Connected Adapter Kit into your ACG machine allows it to transmit data which can be used to improve its productivity.

**Make it better.**

# Let's talk.

**We look forward to hearing from you.**

Get in touch with us to find out more about our range of products and services. ACG is ready to provide specific solutions for your unique requirements.
