

NUTRACEUTICAL CAPSULES

ACGcaps™ HX

C CELLULOSE

ACG

Make it better.

Our gastro-protective HPMC capsule.

ACGcaps™ HX is specifically designed for improving bioavailability and efficacy of acid-sensitive nutrients. Containing a special polymer, ACGcaps™ HX protects active ingredients by delaying their release until safely outside the acidic gastric environment.

Key features

- / Delays nutrient release, with a proven and guaranteed disintegration time of no less than 30 minutes¹
- / Reduces the risk of acid reflux or irritation to the gastric mucosa
- / Suitable for acid-sensitive ingredients such as enzymes, prebiotics, and probiotics
- / Ideal for heat-sensitive active ingredients that can degrade during coating
- / Accelerates product development, and saves on additional coating processes and costs

Suitability

- / Nutraceutical

¹ Disintegration test performed as per ACG's in-house protocol

These certifications are applicable to certain colours and / or variants.

When using ACGcaps™ HX capsules, you may display this badge on your packaging as a competitive advantage – providing consumers another proof point of your brand's quality credentials, efficacy, and attention to detail.
