ACG Inspection Installs 1,000th Track & Trace Line

***ACG's comprehensive serialization services implemented
in more than 100 countries around the world***

ACG Inspection – one of the four businesses of ACG Group, the only supplier in the world offering end-to-end manufacturing solutions for the pharmaceutical industry – recently completed the supply, installation, and validation of its 1,000th Track & Trace line. This milestone places ACG among just a handful of global serialization providers, a testament to the company's comprehensive Track & Trace solutions spanning initial batch coding and serialization through aggregation, data management and government/third-party reporting.

The milestone also marks the 10-year anniversary of ACG Inspection. Since its' inauguration the company has grown steadily across Europe, with facilities in Croatia, Switzerland and Russia added recently.

ACG Inspection's (ACGI) two signature services, VeriShield, and QualiShield, combine to encompass the full gamut of pharma serialization needs, offering turnkey compliance with current and pending track & trace mandates in countries across the globe. VeriShield offers serialization and aggregation solutions for cartons and bottles at the primary, secondary, and tertiary packaging levels. QualiShield is a complementary, extensive range of high-accuracy camera inspection solutions for pharma doses, labels, and cartons to help pharma companies consistently deliver best-possible products.

ACGI has an extensive portfolio for global Track & Trace requirements with complete coverage of Levels 1-5 serialization needs, from individual line implementation to enterprise IT coordination and government/third-party reporting capabilities. The company has a serialization solutions presence in more than 100 countries around the world.

ACGI's VeriShield serialization and aggregation solutions with Enterprise Management Suite are among the critical solutions designed to provide customer compliance for India DGFT mandates. These end-to end comprehensive solutions include line-level serialization and aggregation solution with a centralized solution providing Track & Trace regulation support, global network serial number management, centralized data management, integration modules for supply chain partners, etc.

###

About ACG

ACG group is the world's only integrated pharma manufacturing solutions company absolutely committed to delivering exceptional solutions to the global pharmaceutical industry. The company's diverse product range of Capsules, Films & Foils, Engineering, and Inspection systems meets international regulatory requirements.
