ACG Engineering wins the prestigious Red Dot Design Award 2018

Mumbai, Oct 04, 2018:

ACG Engineering, part of the ACG group has been recognized with the prestigious Red Dot Design Award 2018 for the design concept of their innovative product, Automatic 100% Capsule Checkweigher. This product is designed for precise automatic and continuous weighing of a hard capsule in empty filled or partially filled state

The Red Dot Award is a leading international design competition for product design, communication design, and design concepts. Founded in 1954, this award evaluates the best products of the year from all over the world. This year, the competition received a total of 5,640 entries from 55 countries and upon the conclusion of adjudication, the Red Dot was awarded to 265 design concepts.

Richard Stedman, Group CEO, ACG Engineering said, “We at ACG are very honoured to receive this award and this serves as a testament towards our commitment to provide the best products for our customers. We aim to further this commitment by continuously innovating newer products to serve our customers better and achieve customer experience of highest quality.”

This latest capsule check-weigher from ACG is uncomplicated to use and features an integrated electromagnetic force restoration (EFMR) weigh cell which utilizes latest digital technologies to ensure that the results of measurement are accurate and of the highest quality. This machine can weigh any size of capsule without the need to change parts and offers an output of up to 200,000 capsules/hour. It is also equipped with an automatic de-jamming mechanism which ensures constant product flow without any blockages. The machine also has a calibration kit for optimised calibration of load cell/weigh cell.

About ACG

The ACG group is the only supplier in the world offering integrated manufacturing solutions for the pharmaceutical industry. ACG is committed to just one goal: to offer everything needed for efficient capsule and tablet manufacturing. ACG has over five decades of experience and is present in over 100 countries, with over 4,500

employees around the world. Its customer-centric approach has won the company many loyal, satisfied customers and partners, by nurturing relationships with dignity and transparency.
