FOR IMMEDIATE RELEASE

Nov 7, 2018

Las Vegas, US

## ACG to showcase its range of Capsules and Engineering solutions at Supply Side West, Las Vegas

ACG, the only supplier in the world offering end-to-end manufacturing solutions for the pharmaceutical and the nutraceutical industries, will be exhibiting its wide range of Engineering and Capsules solutions at this year's Supply Side West, Las Vegas. At ACG's booth, the visitors will be able to see the synergies created with coupling ACG's Capsules and Engineering products, thereby leveraging the many benefits of integrated manufacturing.

ACG Capsules will be showcasing a wide range of Liquid fill capsules, HPMC capsules, and Clean label products all under 'ACGCcaps' name. Apart from being suitable for *moisture-sensitive formulation*, ACG's wide range of **HPMC capsules** also offer *superior heat stability with no cross-linking issues with the formulation* while meeting standards of Vegetarian society U.K., Certified Vegan, Non-GMO, Star 'K' Kosher and Halal. ACG Capsules also offers HPMC solutions including *ACGcaps H+*, *Next-Gen HPMC capsules* to enhance product performance and *Time-Delayed release HPMC capsules* for effective drug delivery.

For nutraceutical companies looking for an exceptional solution for their liquid encapsulation needs, ACG Capsules' **Liquid fill solution** will also be displayed at the expo. The liquid encapsulation machine also allows the brands to enhance their identity on the capsule with customized printing, band sealing, and taste and odor masking of formulations.

ACG's Engineering business will showcase the *Fluidocap 1000- a Semi-automatic Liquid Filling Machine* and considered ideal for R&D scale. This compact machine can perform both filling and sealing operations and can handle formulations with a viscosity ranging from 80 cps to 80,000 cps, including pastes, hot melts, and thixotropic formulations. Further, it can be used to fill a large variety of capsules from sizes 00 to 4. Both gelatin and HPMC capsule can be filled using this machine. The machine has an output of 1000 capsules/hour.

Mr. Anil Andrade, Business Head, North America said, "Being the world's only integrated manufacturing solutions provider for the Pharma and the Nutra industry, ACG firmly believes in partnering with its customers and providing exceptional solutions for their manufacturing needs. Right from the R&D stage to manufacturing product at industrial-scale, customers will find ACG as their committed partner in the entire product manufacturing cycle."

Using the immersive technology, a unique *Virtual Reality* dream ride is also arranged at the exhibition which will take the visitors through the *world of capsule manufacturing*.

Visitors are invited to attend a knowledge session by Mr. Justin Kalafat, Scientific Business Development Manager, ACG North America, on 'HPMC Capsules: Endless Possibilities for Dietary Supplements'. Mr. Kalafat will discuss the varied applications of HPMC capsules for nutraceutical applications, formulation suitability and the influence of consumer lifestyle preferences.

***Come and meet ACG at booth number- 2043.***

### **About ACG**

The ACG group is the only supplier in the world offering integrated manufacturing solutions for the pharmaceutical industry. ACG is committed to just one goal: to offer everything needed for efficient capsule and tablet manufacturing. Our customer-centric approach has won us many loyal, satisfied customers and partners by nurturing relationships with dignity and transparency.
